

## Readings for Introduction, Protocols and Layering

These are the readings referred to in the videos and slides. They are optional. Section numbers refer to the text unless otherwise stated.

- 1-1 Goals and Motivation. None (Slides give text pointers as a course roadmap; don't try to read them yet.)
- 1-2 Uses of Networks. §1.1, loosely.
- 1-3 Network Components. §1.2, loosely.
- 1-4 Sockets. §1.3.4, and §6.1.2-6.1.4. There are many online guides for learning sockets, the most popular of which is perhaps "Beej's Guide to Network Programming"
- 1-5 Traceroute. None. Many online pages and resources, e.g., Wikipedia, describe it.
- 1-6 Protocols and Layers. §1.3
- 1-7 Reference Models. §1.4, §1.6
- 1-8 History of the Internet. §1.5.1
- 1-9 Lecture Outline. None.
