Readings for Routing

These are the readings referred to in the videos and slides. They are optional. Section numbers refer to the text unless otherwise stated.

5-1   Routing Overview. None.
5-2   Shortest Path Routing §5.2.1-5.2.2
5-3   Computing Shortest Paths with Dijkstra §5.2.2
5-4   Distance Vector Routing §5.2.4
5-5   Flooding §5.2.3
5-6   Link State Routing §5.2.5, §5.6.6
5-7   Equal-Cost Multi-path Routing §5.2.1, §5.2.6
5-8   Combining Hosts and Routers. None
5-9   Hierarchical Routing §5.2.6
5-10   IP Prefix Aggregation and Subnets §5.6.2
5-11   Routing with Policy (BGP) §5.6.7
